

24th of June 2022

Your Brain in Mind is a new and truly multi-disciplinary private memory clinic situated in Westside Private Hospital in Brisbane.

Our passionate and experienced team includes a psychogeriatrician, OT, physiotherapist, Aged Care Navigator, clinical psychologist, neuropsychologist, and pharmacist. We provide a comprehensive assessment and management service for anyone experiencing cognitive difficulties.

We recognise the value of post diagnostic support when an individual is diagnosed with a form of dementia and aim to provide services to help the individual with the condition as well as their carers and loved ones.

We are seeking a geriatrician to work alongside us in the clinic. This will be a sessional arrangement, with full administrative support offered.

As all the members of the clinic team are co-located, referrals to other practitioners are easily organised.

We would love to hear from anyone who is potentially interested in working as part of our supportive and progressive team. More information about the clinic can be found on our website www.yourbraininmind.com.au.

Please email us on kailas@yourbraininmind.com.au or phone 07 3130 2800 to discuss further.

Yours Sincerely,

Dr Kailas Roberts

Psychogeriatrician and Director of Your Brain in Mind
